KEY INFO

- Sanitaryware all Drummonds.
- Single ended Clyde bath
- Dalby shower
- Naver single vanity basin

The well proportioned room made the layout easy and the remote location meant privacy wasn't an issue so a large window floods the space with natural light.

surrounding countryside. The classic basin mixer in nickel, has been deck mounted for elegance and convenience.

The Naver single vanity basin with it's generous dimensions is accentuated by the elegant mirror and accompanying glass shelf. The floor mounted heated towel rail works with the simplicity of the scheme and keeps the room cosy, while the positioning of the mirror above the sink catches the light from the window making it ideal for shaving or makeup application.

The glass shower enclosure frames an art

print of J. J. Audubon's 'Birds of America' and is a major focal point in the room, adding colour and feature and making the bathroom very unique to this home.

The elegant Casseley low level WC was chosen to draw the eye to the corner of the room and keeps to the traditional theme.

A mix of fresh flowers, faux foliage and candles have been used to create atmosphere and ambience and are a nod to the rural location.

The overall look is stunning in its simplicity and highly memorable.

The Tyburn bath from **Drummonds'** collaboration with interior architect and product designer Martin Brudnizki is a subtle adaptation of the traditional freestanding bath. Symmetrical on the outside, the Tyburn has an asymmetric interior with two differently-shaped ends; one sloped for reclining and one more upright for sitting up or reading.

akes Bathrooms' Mirror collection provides a full-length mirror on the glass of your enclosure, shower or bath screen, which will instantly free up space and make the perfect place for styling your hair or applying make-up.

Packed with style and practicality, the beautiful cloakroom solutions from **Roper Rhodes** have been thoughtfully designed to provide the smallest room in the house with perfectly proportioned storage solutions. This compact and functional Mia basin unit features a ceramic basin with an offset design to provide more wash space.

The Bourne is a compact design by **Drummonds**, ideal for small bathroom designs. Supplied with or without brackets, the china vanity basin is available with nickel, chrome or brass fittings.
