Drummonds designs are always on trend.
Our collections stem from both our in-house design
team and our collaborations with leading product designers.

Martin Brudnizki's latest collection for us, Bestwood, is inspired by machinery controls and industrial joinery. The result is an edgy and modern collection, cast in solid brass, using the traditional lost-wax process.

By hand

MANUFACTURING

A person wearing a full-body protective suit, including a helmet with a rectangular visor, is using a high-pressure water spray gun. The person is positioned in a dark, industrial environment, possibly a factory or warehouse, with a large, dark, curved object in the foreground. The lighting is dramatic, with a strong light source from the upper left, creating a bright glow around the person's head and the spray gun. The overall mood is industrial and focused.

Each one of Drummonds' bathroom products is manufactured by us
in our own factories using time-honoured, handmade processes.

18

Finishing touch

Dedication to traditional artistry, modern technology and exquisite detail shines through in each and every Drummonds' piece. We define classic style by taking pride in every single craft, right through to the final polish.

19

Time aged

PROCESSES

22

Timeless yet modern, handmade and unique,
all Drummonds' products are crafted to make a statement.

In the detail

Lost wax casting; a fine art rediscovered. Each and every piece of Drummonds' brassware is hand carved in wax prior to casting. This traditional method allows extremely fine detail to be reproduced exactly as intended.

Classics

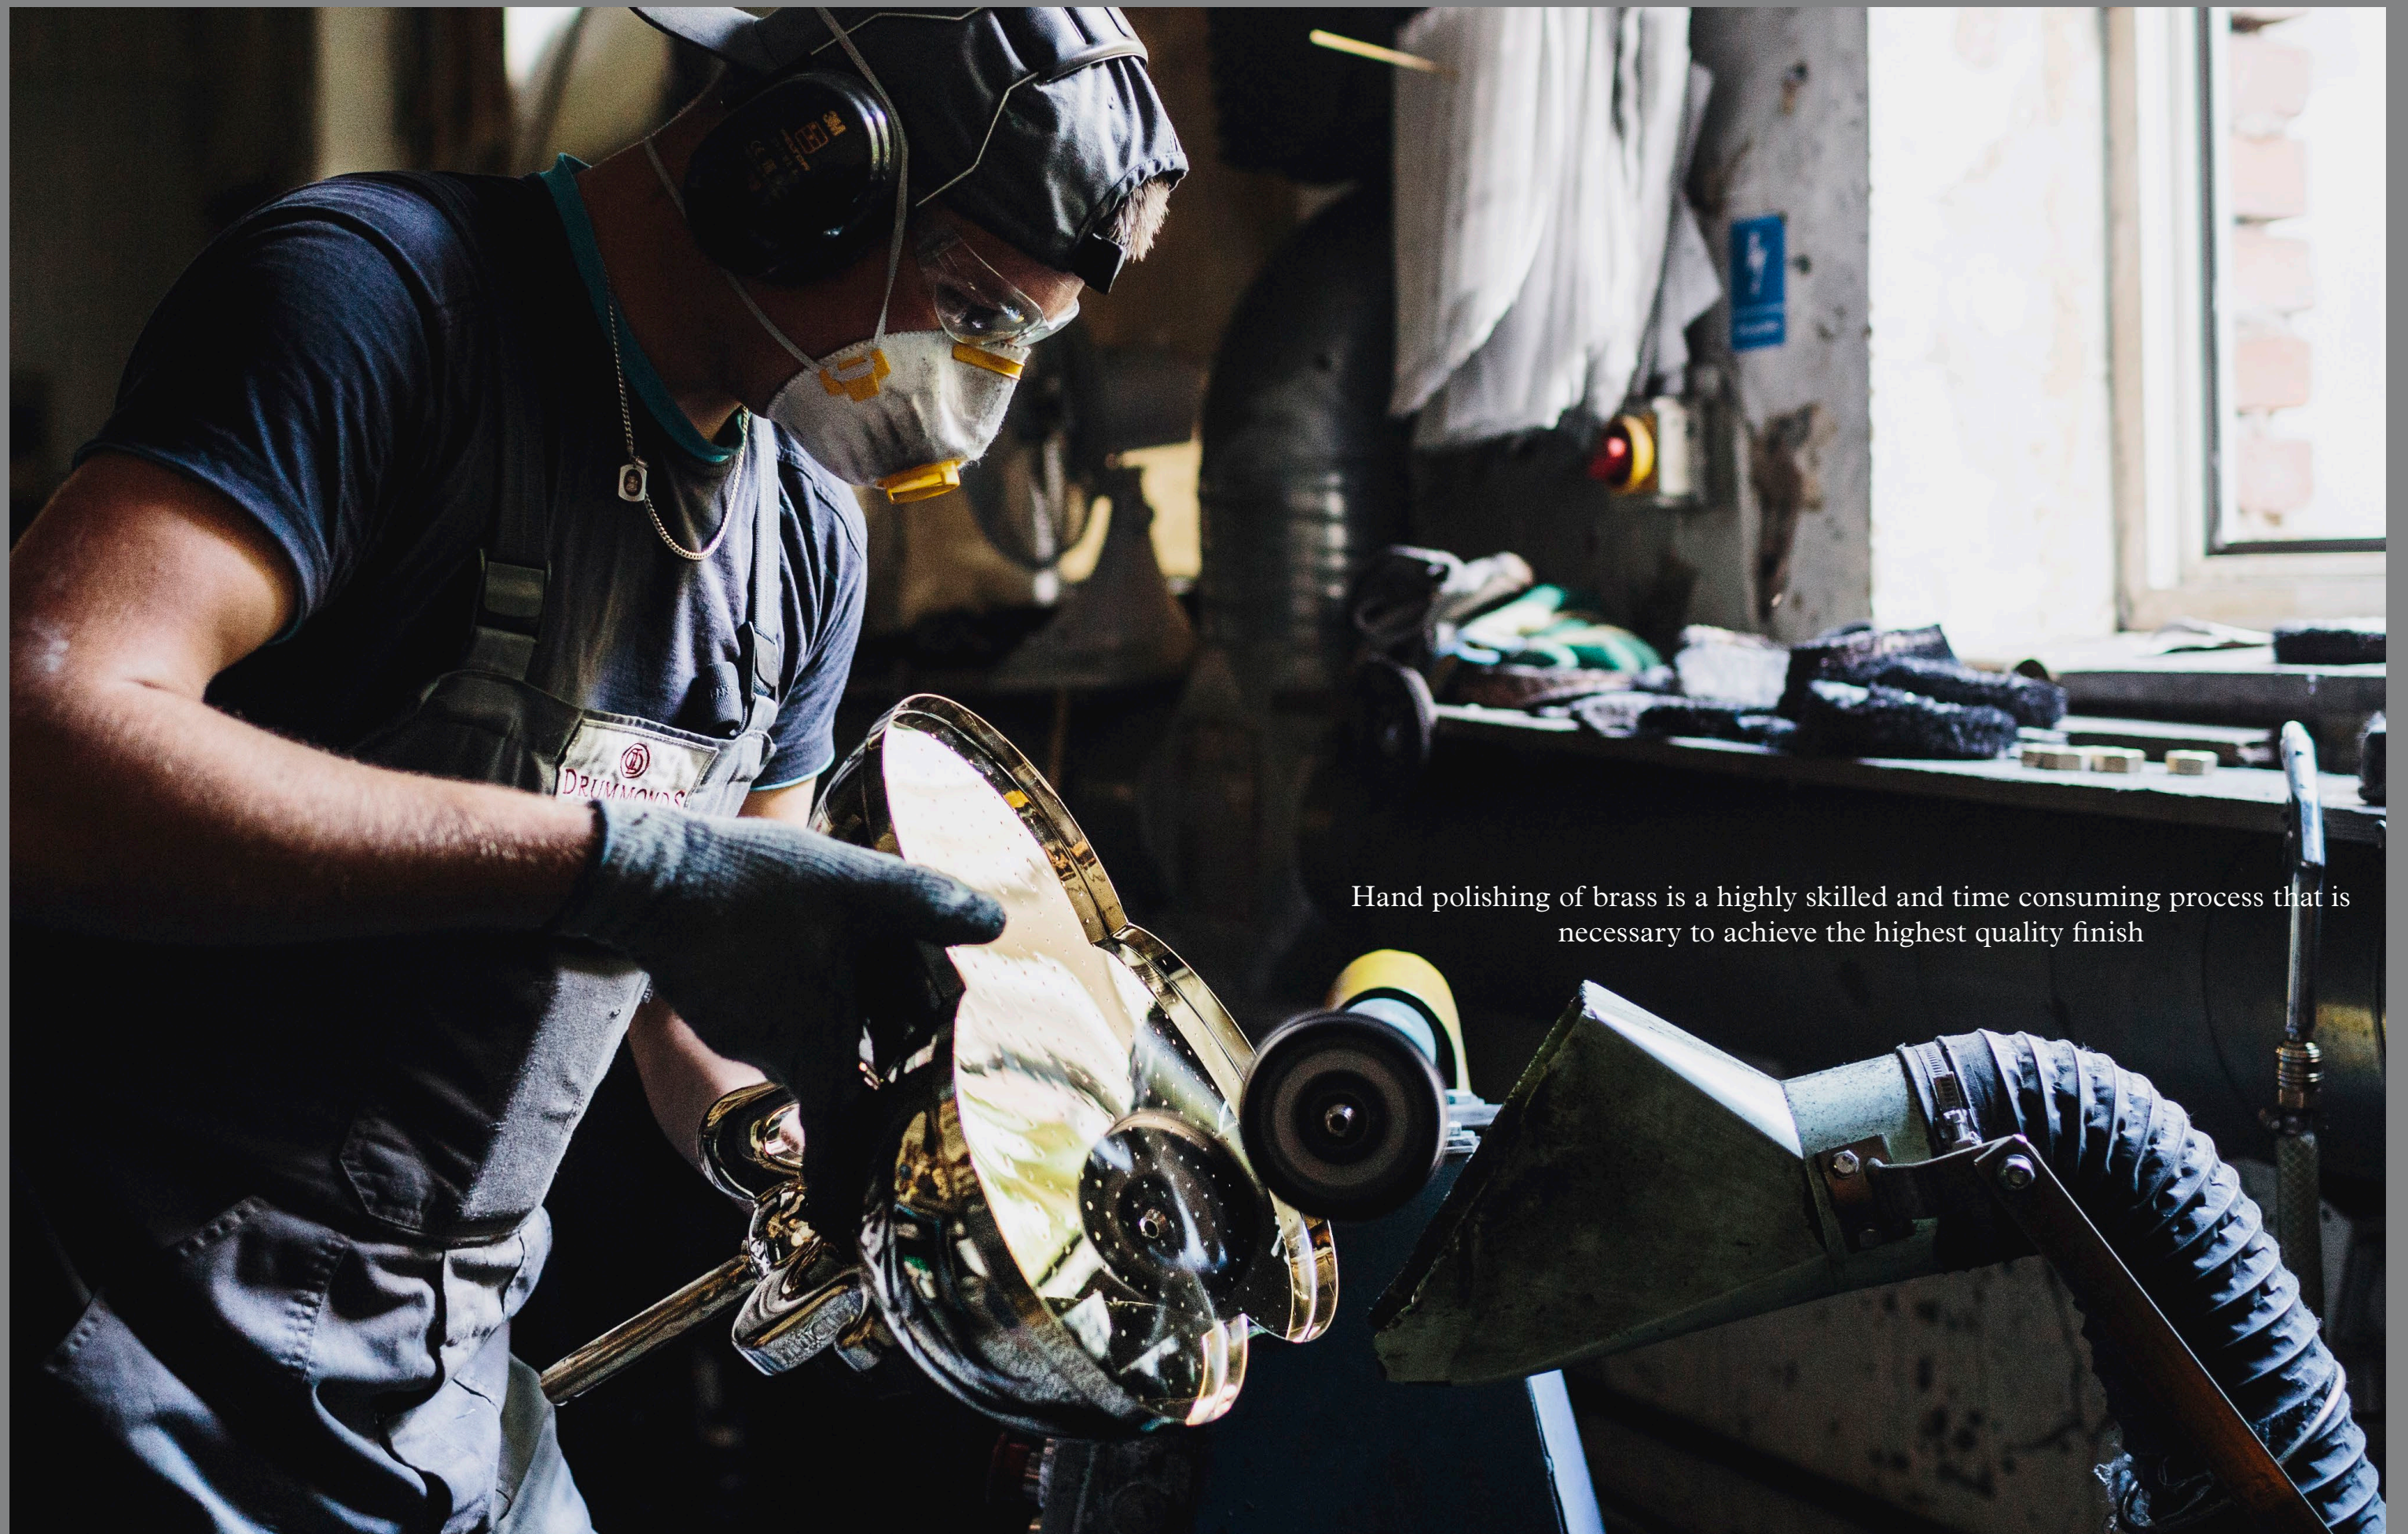

OF TOMORROW

From our freestanding cast iron baths to our English chinaware and lost-wax cast brassware, we are proud to design and make classic products that stand the test of time.

Hand polishing of brass is a highly skilled and time consuming process that is necessary to achieve the highest quality finish

Refining

TODAY'S BATHROOMS

38

The art of enamelling

Our unique powdered enamel is sprinkled by hand up to five layers thick, resulting in the beautiful, undulating finish that forms the interior of our baths.

Finished by hand with up to 14 hours of polishing.

Award

WINNING DESIGNS

Awarded as a design classic by Architectural Digest in 2017, our Double Ladybower Vanity Basin Suite is a modern classic.

In 2018 we won several awards such as Showroom of the Year & Best Use of Colour.

The Gallery

Cast Iron Bath Tub Options

RAW

With a basic rust inhibiting finish applied, the natural rough exterior of the cast iron shows through.

PRIMED

The exterior is ground down, then filled and primed to give a smooth finish ready for painting.

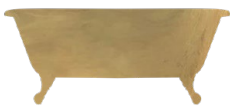

PAINTED

Choose from any Farrow & Ball colour with a Gloss or Matt finish.

POLISHED & LACQUERED *

A thin layer of the cast iron exterior is ground off and polished by hand to a beautiful shine and sealed.

BRASS CLAD - POLISHED

Brass is hand-pressed onto the bath and sealed, and polished by hand to a beautiful shine.

WRAPPED EXTERIOR

Bath is wrapped and painted with any Farrow & Ball colour.

COPPER CLAD - POLISHED

Copper is hand-pressed onto the bath and sealed, or patinated to give an antiqued finish.

COPPER CLAD - BURNISHED

Copper is hand-pressed onto the bath and patinated for a beautiful burnished finish.

COPPER CLAD - HAMMERED

Copper is hand-pressed onto the bath and hammered for a beautiful textured finish.

Overflow hole

WITH

The bath tub will be supplied with an overflow hole in the side of the tub. It will be perfect for all our wastes except our plunger waste unit.

WITHOUT

The bath tub will be supplied without an overflow hole. This is for our plunger waste unit - an integrated waste and overflow unit fitted outside the bath tub.

Care & maintenance

INSTALLATION

Please refer to our website and manuals for full information on how to install and maintain your Drummonds products (including the weight, set-out dimensions & installation guides).

DIMENSIONS

Please note that dimensions and weights may vary due to the handmade nature of our products.

* This is a natural cast iron finish. There will be a variable amount of pitting on the exterior of the bath. This variable effect makes each bath uniquely beautiful.

Brass Finish Options

UNLACQUERED BRASS

Hand cast & polished but not lacquered; they will age beautifully over time. The component parts slightly differ in colour.

NICKEL PLATED

Polished nickel is more hard-wearing than brass but requires periodic polishing to keep bright or can be left to age gracefully.

CHROME PLATED

This is the most hard-wearing finish which requires minimal maintenance, a brighter blue finish to the nickel plating.

Tap Head Options

MULL TAP HEADS

Freestanding Showers

Brass

Lost wax casting, a fine art rediscovered. Each & every piece of Drummonds' brassware is hand carved in wax prior to casting. This traditional method allows extremely fine detail to be reproduced exactly as intended.

A high-end shower stall featuring polished brass fixtures. The walls are covered in dark blue tiles with a herringbone pattern. A large brass showerhead is mounted on a curved arm, and a handheld showerhead is also visible. The shower is framed by brass bars, and a white towel with grey stripes is hanging on the right side. The ceiling is white with a recessed light fixture.
