CLASSIC WITH A TWIST

A trio of talented interior designers have beautifully combined a vintage feel with contemporary chic in this large, luxurious retreat

BRONZE AGE

Timeless is the best way to sum up the aesthetic of this bathroom, created by Orla Read of Orla Read Design Studio, Nicola Harding of Nicola Harding & Co and Victoria Barker of Studio Faeger. This floor-standing industrial-style bath tap is cast in solid brass and, as well as all the other hardware in the room, features an antique bronze finish. The shade is a nod to the natural materials and tones used throughout the space and adds to the overtly calming feel.

Bestwood lever floor-standing bath and shower mixer tap, from £3,372, Drummonds

BATHING BEAUTY

Transformed with a splash of dusty raspberry paint, the freestanding bath brings a contemporary twist to the space, giving a wry smile to the traditional pieces around it.

The Tay bath with painted finish, from £4,770, Drummonds

ON THE EDGE

The walk-in shower is distinguished by its striking black metal-framed windows and door. The interior is lined with the same Crema Evora marble that tops the bespoke vanity, visually pulling the space together. With its twin shower heads, there's room enough for two.

Bestwood thermostatic **shower valve**, from £702; Bestwood shower **control**, from £672; Grand **shower rose** and wall-mounted **arm**, from £870; Grand **hand shower** and **wall bracket**, from £426, all Drummonds

LET'S TALK

The star of the show is a circular vintage conversation seat, which turns the space from functional washing zone into somewhere to linger and enjoy. The room is designed to be akin to an extension of the adjoining bedroom rather than somewhere to rush through.

Vintage conversation **seat**, price on request, Howe London
