DESIGN 100

*The people, products, places and
spaces you need to know about*

HALLWAY Walls lined in reclaimed pitch pine complement the bespoke staircase made from Douglas fir and intricately bent pitch pine by skilled local artisans. In the snug off the hall, a custom-made jute **rug** designed by Aldridge & Supple picks up on the tones of the wood and the leather Arts and Crafts armchairs. **BATHROOM** The traditional-style cast-iron **bath** from Drummonds, positioned to make the most of the view, is paired with a salvaged and refurbished set of shower **mixer taps** and a brass **towel rail**, all from Original Baths. The bronze 'Rupert' **wall light** is from Hector Finch
