

BATHS

The Burnished Copper Tamar Bathtub

The Burnished Copper Tamar is a compact, double-ended bath with a perfectly proportioned contemporary skirt. This allows it to look neat and elegant wherever it's placed in your home. The comfortable roll-top design makes this a brilliant choice for a relaxing soak. Finished with a copper exterior wrapped around the tub, giving the look and beauty of copper but with the durability of cast iron.

For IAPMO/MA listed bathtubs, please specify a tub with slip resistance.
