

BATHS

The Whitewater Bath Tub

Drummonds has launched a design collaboration with interior designer Susie Atkinson, the name behind many award-winning international projects. The new Whitewater Bath is a refreshing reinterpretation of the classic cast iron slipper bath. The bathtub shown in the pictures has custom-painted white feet. If you require this option, please ask when placing an order. Winner of Livingetc Style Awards 2021

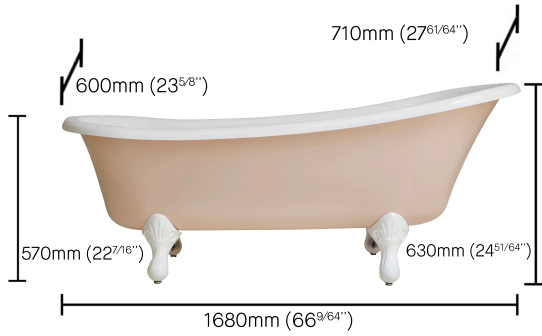

For IAPMO/MA listed bathtubs, please specify a tub with slip resistance.
