

WALL MOUNTED TOWEL RAILS

3-Bar Wall Mounted Towel Rail

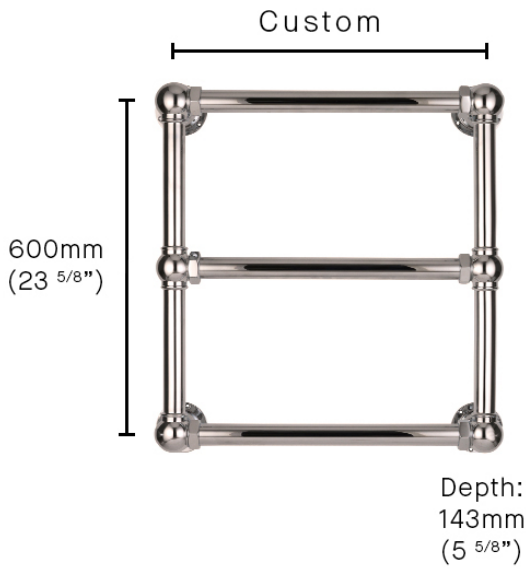

Drummonds heated towel rails are custom made to order and are large enough to dry even the biggest towels. Each towel rail is hand-crafted piece by piece from solid brass, for ultimate luxury. Our towel rails can be wall mounted or floor mounted and come with hot water, electric or dual fuel heating options. Custom measurements can be made on request, however, please note there is an extra charge for bespoke pieces. If you need to know the dimensions to the feeds of the towel rail, please see our installation manuals. The radiator valves of the floor mounted towel rails are situated 85mm in from the centre of each vertical pipe (when 15mm pipe is used). Wall mounted towel rails have radiator valves on the outside. Radiator valves and extendable escutcheons are sold separately.

PRICE GBP
