

WC SUITES & PANS

The Dunnett WC Pan

The Dunnett floor-standing WC pan allows the cistern to be concealed within the wall, leaving only the classic Drummonds pan in view, resulting in a composed, uncluttered look.

The cistern flush handle is to be ordered separately and offered in three considered finishes: solid brass, off-white English china, or burnished walnut. A small but thoughtful detail, chosen to complement the surrounding materials and to age gracefully with use.
