A NEW SHADE FOR A NEW YEAR

STYLISH / INTELLIGENT / ELEGANT

●● *The industrial-style GLASS & METAL FRAMED shower door lends an AIR OF URBAN CHIC* ●●

This contemporary ensuite shower room in a London apartment was commissioned by architects and interior designers Waldo Works and executed by Drummonds. An industrial-style glass and metal framed shower door lends an air of urban chic and the nickel-finished Nene shower is clearly visible through it. Hand-glazed period style tiles in rich blue hues, which run around the room and extend into the walk-in shower, were commissioned specially for the project from Victorian Ceramics. Drummonds' Hebdern vanity creates a striking focal point in nickel finish with black Marquina marble that co-ordinates perfectly with the room's colours and detailing. We admire the stylish blue, black and white colour scheme, and the impeccable sense of balance and style with which it's executed. Planning a new bathroom in 2017? Take note. ♦

CLEAN LIVING

Take inspiration from this beautiful shower room, made by *Drummonds* for Waldo Works

Words **PEARL BOYD**

- *Single Hebdern vanity, £3,300*
