SKY'S THE LIMIT

The key to creating the perfect open-plan kitchen is getting the space and the layout right first before deciding on the furniture and design details. A good designer will understand the importance of the function of the space and will aim to incorporate all the elements you have specified, as the Brompton range from McCarron & Co highlights. mccarronandco.com

**MAXIMUM IMPACT**

Maxlight installed exquisite architectural glazing into this London living/workshop property development. Light now floods in thanks to Maxlight's triple and double ultra slim doors through to walk on glass floors. maxlight.co.uk

BIT ON THE SIDE

The existing bathroom of this family house was tiny, so the owners added a new space above a ground-floor utility room, which could be accessed through the old bathroom (now a dressing room). Due to planning restrictions, the resulting room is long and thin, with a steeply pitched roof. However, thanks to clever design, it contains both a walk-in shower and freestanding bath. Clyde bath, from £5,100; Classic bath taps from \$1,650; Dalby shower, from £2,720; Walk-to-Wall towel radiator, from £2,142; drummonds.uk.com
