"Our baths are made using the time-honored sandcasting technique first employed by the finest Victorian foundries"

KITCHEN bath
drummonds uk

Little lasts longer than cast iron, so those seeking exceptional durability as well as style should recognize **Bute** as the bathtub of a lifetime. The newest iteration, with seamless pressed-steel surround, comes primed in white enamel but can be painted if desired (there's a hardwood option, too). The tub itself, of hand-poured cast iron, takes weeks to complete. And because it's nearly indestructible, you have a rock-solid reason to take the plunge. drummonds-uk.com.
